THE JOSEPH N. BOAKAI f o u n d a t i o n

MESSAGE FROM THE FOUNDER

»»» READ MORE

Drives transformative social change by bringing together implementing organizations with shared values to provide needed assistance and service with impact to improve the lives of the people of Liberia

This has been my guiding philosophy throughout my public service career. Therefore, when I completed my term as Vice President of Liberia and returned to private life, I pondered on how I could continue to be of service to the less fortunate in our society and help empower communities.. The JNB Foundation was founded to fulfill this yearning desire. The primary goal is to assemble a group of capable leaders and volunteers to ensure that the next generation of leaders and communities in need receive that “helping hand “needed at the right time and place when none seems available.

LOCAL AGENCIES FLOCK TO JNB REHAB HEADQUARTERS TO PICK UP DONATIONS

By James Kokulo Fasuekoi/JNB Foundation Comm. Director

>>> COMPOSTING

Today, May 19, 2025, the deputy executive director for President Joseph Nyuma Boakai's charity, Mr. Henry Saah Flanpor stood holding a bunch of keys to three tricycles in the foundation's yard. They had been donated lately to the foundation by a major donor and a team from Bomi County headed by Tubmanburg's City Mayor Mohammed A. Sheriff had come to pick all three up for his city.

On Friday, May 16, 2025, a delegation from Bomi Hospital in Tubmanburg was at the JNB Foundation Headquarters too, waiting to pick up a large medical consignment for the hospital. The package included a pricey modern X Ray machine which will practically serve Grand Cape Mount, Bomi and a large part of Gbarpolu County. The week before, on May 12, Manbuelu B. Moore, an administrator at Bopolu City Healthcare Center also picked up a similar X Ray for his county of Gbarpolu while around May 7, Dr. Yolah B. Camanor, Chief of Medical Staff at Buchanan Hospital went in and collected packages set aside for his hospital situated along the coast.

About May 5, the Monrovia City Corporation too sent in a group of staff so they could collect the MCC package; the delegates included Sanitation Director, Arthur Cambell, Assistant Sanitation head Joe Dolph Biam, Fleet Director, Prince F. Tiahkpor, and Deputy Communications Director Destiny N. Apenahier. In the pictures below, both JNB Foundation's Executive Director, Hon. Jackson K. George Jr. and Deputy Executive Director, Mr. Henry Saah Flanpor, are seen leading the presentation exercises on behalf of the president's charity. Many thanks President Joseph Nyuma Boakai and our many donors for such a wonderful gesture.

HIGHEST JNB FOUNDATION BENEFICIARY GETS DONATION OF 6 VIP CHAIRS

2

By James Kokulo Fasuekoi/JNB Foundation Comm. Director

Liberia's largest referral hospital, the John F. Kennedy Hospital in Sinkor, Monrovia remains one of JNB Foundation's highest beneficiaries of donated goods, shipped from abroad, since the new leadership of Hon. Jackson K. George took over the entity's affairs from April 2024. Last November, JFK alone received 10 life-saving incubators (out of 31 shipped to the foundation).

Now, yesterday, the JNB Foundation goodwill gesture continued with donation of 6 VIP-styled office chairs, to be used by JFK for its VIP offices. Mr. David Rickey Karnue who's director for materials management, took delivery of the items in the presence of Hon. George as seen in below photographs; Text and Photographs by James Kokulo Fasuekoi/Communications Director
